Battery Warning

CAUTION: There is an inherent risk with the use of any and all rechargeable batteries in any circumstance. Use special caution when working with Li-ion (Lithium-ion), LiPo (Lithium-ion Polymer) and any rechargeable cells, as they are very sensitive to charging characteristics and may explode or burn if mishandled. Make sure the user has enough knowledge of Li-ion (Lithium-ion), LiPo (Lithium-ion Polymer) and any rechargeable cells in charging, discharging, assembly and storage before use. Always charge in/on a fire-proof surface. Never leave charging batteries unattended. Do not use any rechargeable battery as well as any battery charger if any visible damage is present, as well as if the cell or charger has been stressed through mishandling, accidental or otherwise, even if damage may not be visible. Always store and transport rechargeable cells in a safe, non-conductive container in a controlled environment. Dispose of all battery cells and chargers in accordance to local laws and mandates. Do not use chargers purchased outside of LekkeVape.com. Doing so may cause damage to the battery and malfunctions which can cause serious injuries. We are not responsible for damage of any modification to the batteries in form or shape. We are not responsible for any damage caused by misuse or mishandling of Li-ion (Lithium-ion), LiPo (Lithium-ion Polymer) and any rechargeable cells.

IMPORTANT BATTERY SAFETY NOTICE

Stay Safe And Be Aware Of The Chances Of Lithium Battery Fires!

WARNING: Lithium Polymer batteries (LiPo or Li-Po) and Lithium Ion batteries (Li-Ion) have a very high energy density (A-Hrs. to weight ratio) compared to NiMH, NiCd's, or other batteries. That high energy density means that there's is also an increased risk when using them. Because of this, we at LekkeVape and any and all of LekkeVape's parent and subsidiary companies recommend extreme caution in their use, and are informing you of the risks that come with using these types of batteries. The main risk is FIRE or EXPLOSION which can result from improper charging, physical damage, or short circuiting the LiPo, Li-Ion and all rechargeable batteries. We must stress that all lithium and all rechargeable batteries be used with extreme caution and attention in order to prevent any dangerous situations. Houses, garages, and shops have also burned as the result of a lithium battery fire! Due to the close proximity of rechargeable batteries to the user as per the nature of usage, these risks are increased and may result in great physical harm!

For devices that require the use of two or more batteries to operate, batteries must be matched in brand, model and battery state at all times. Discharge and recharge batteries within the same grouping. Failure to do so may result in malfunction, battery failure, and injury.

Hybrid and mechanical devices are inherently dangerous and pose danger during use, storage, and assembly. Improperly storing, assembling, and using hybrid and/or mechanical devices may result in catastrophic battery failure, injury, and/or death. Exercise extreme caution in the use and handling of these devices at all times.

This product and any product sold under or in conjunction with www.LekkeVape.co.za is not a toy. NEVER leave any product unattended, as the risk of potential harm is much greater. Must be at least 18 years of age or of legal age pertaining to your Country and/or jurisdiction to purchase electronic cigarette products from this web site. Falsifying your age for the purpose of purchasing products from this web site is strictly illegal and is punishable by law. Purchasing items on behalf of a minor is prohibited and punishable by law. We reserve the right to ask for identification upon our discretion. By shopping our store, you are confirming you are of legal age to purchase these products. We reserve the right to deny any order if we think it is placed by a minor. Providing a false declaration under penalties of perjury is a criminal offense.

THE FOLLOWING METHODS ARE RECOMMENDED WHEN CHARGING AND USING LITHIUM BATTERIES:

1. ALWAYS store and charge lithium batteries in a fireproof or "LiPo safe" container. You should never store, if possible, your rechargeable batteries inside the device if not intended.
2. ALWAYS charge in a protected area that is away from any flammable (combustible) materials. Always monitor the charging process; NEVER leave the charging process unattended at any time.
3. ALWAYS use chargers SPECIFICALLY DESIGNED to charge lithium batteries, at settings that match your battery. Many documented lithium fires have occurred due to improperly set chargers that feature user-selectable/adjustable settings. Never attempt to charge lithium cells with a charger which is not specifically designed for charging lithium cells.
4. ALWAYS use a charging system that monitors and controls the charge state of each individual cell (a.k.a. balanced charging). Charging with a balancer is a safer method, because unbalanced cells can lead to disaster if a single cell is overcharged. If any battery show any sign of swelling during the charging process, discontinue the charging IMMEDIATELY and move the battery to a safe place outside as they could erupt into flames.
5. NEVER PLUG IN A LITHIUM BATTERY AND LEAVE IT TO CHARGE UNATTENDED! This is a highly dangerous situation, and many serious fires have resulted from this practice!
6. NEVER continue to use, reuse, or attempt to charge a physically-damaged lithium battery. If ever your lithium battery gets damaged while in use (ex: drops, dings, overheating etc.) you must carefully remove the battery and place it in a safe place for at least a half hour to observe. Physically damaged lithium battery cells could spontaneously erupt into a fire!
7. NEVER disassemble or attempt to make your own battery combinations from individual lithium cells. This includes specifically "stacking" batteries.

Lithium Battery Liability Disclaimer and Warranty

LekkeVape and any and all of LekkeVape's parent and subsidiary companies assumes no liability for the use or misuse of this product or damages incurred to person or property by the use or misuse of chargers, batteries, atomizers, or other electronics that are used in conjunction with these products.
